

## Who is MEK?

### Mr Arshad disclosed atrocities of MEK in Geneva Human Rights Watch Summit

Mr. Arshad chairman of "No to Terrorism and Cults Association" with nearly 4 decades of membership of MEK and human rights activities was invited to the UN-Watch summit in Geneva on March 15, 2016 where he disclosed some of MEK's atrocities in violation of Human Rights as a Terrorist Cult Organization and warned the West on hidden terrorism in Europe and elsewhere.

Mr. Davood Baghervand Arshad 60 is a UK educated engineer with 40 years (since 1977) of High Ranking membership of Mujahedin-e Khalq of Iran (Mek) and ex-member of its National Council of Resistance of Iran, Head of Mek's Turkish and Pakistan branch. Mr. Arshad was sentenced to 10 years imprisonment when he asked to leave Mek.

### "Human Rights violation as roots of Global Terrorism's survival"

There are daily reports of human rights abuses. For years many countries around the globe have been under the close watch for bad Human Rights records.

Mr. Arshad Chairman of NTC Movement in UNWatch Summit in Geneva (2nd from Left)

But what have gone unseen in the Middle East Region are the terrorist-cult groups that have been catastrophically transformed to the greatest threat to Human being and its values at global scale.

The most known examples of such disastrous transformations are ISIS, Al Qaeda and Taliban.

Unfortunately, to my inside knowledge, what is not well known while it is much more dangerous than ISIS and is not only going unseen, but doing all it can using its huge financial resources and wealth inherited from Saddam Hossein of Iraq and illegal activates of money collection to meet the bills for its window dressing in organizing luxury meetings and conferences, [highly paid speakers from within the politicians](#), Paying a few remaining individual members of its political show window front called National Council of Resistance of Iran, in order to hide its real savage face by deceiving the world, is MEK of Iran led by Masoud and Maryam Rajavi based in Anvers Sur Oise, North of Paris.

### MEK and Killing US Citizens

[The Guardian of UK Sept 21, 2012 wrote:](#)

The MEK cut a 'swath of terror' in the Middle East, but leaders have worked hard to convince the west they are peaceful. ...The MEK ran a bombing campaign inside Iran against the Shah's regime in the 1970s. The targets were sometimes American, including the US information office, Pepsi Cola, Pan Am and General Motors. The group routinely denounced Zionism and "racist Israel", and called for "death to America". A state department report in 1992 identified the MEK as responsible for the killing of six Americans in Iran during the 1970s. They included Three military officers and three men working for Rockwell International, a

Conglomerate specializing in aerospace including weapons, who were murdered in retaliation for the arrest of MEK members over the killings of the US military officers.

Maryam Rajavi and Masoud Rajavi MEK leaders

Photo: US Embassy hostages and Mek's Publication Mojahed

The MEK was an enthusiastic supporter of the seizure of the US embassy in Tehran following the Iranian revolution. It called the eventual release of the American hostages a "surrender".

**MEK and 9/11,**

The MEK was also a zealous supporter of Sept 11, terrorist act. MEK leaders Masoud and Maryam Rajavi celebrated the Sept 11, with their nearly 4000 members while watching the horrific act of barbarism on the CNN. Rajavi called it "true struggle against Imperialism", and pitted that he could not do it first before Bin Laden, although he said he was sure that his group can do it better with more casualties when the time comes.

**MEK and Suicide bombing using children,**

**MEK's Suicide Bombers Among them 13yrs old girl (top right)** MEK Publication « Mojahed » Inse261

The world is shocked by unbelievable and devastating reports of Saturday 5 March 2016 that, [The Islamic State is recruiting and indoctrinating children using the](#) same methods as the Nazi regime, with the goal of creating an even more lethal second generation of extremists, states a report by the London-based anti-extremism think-tank Quilliam.

The study, "Children of Islamic State," was reported in the Guardian on Saturday, which said that the younger generation of ISIS is indoctrinated with religious concepts from birth.

The Islamic State, also known as ISIS and ISIL, is training many children as future terrorists, spies, executioners, preachers, soldiers and suicide bombers, says the report.

Mek is recruiting and indoctrinating children using the same methods as the Nazi regime, with the goal of creating an even more lethal second generation of extremists.

But MEK as the God Father of Terrorism has long been in it since 1981. MEK recruited and having indoctrinating children such as 13 years old girl called Gohare Adabawaz as suicide bomber in a mosque in Iran, which killed tens of people.

They even went further and forcefully separated children from their members of the cult and sent them to Orphanage they had in Europe especially one in Cologne and later they smuggled them to Iraq to take up arms. Many killed in the operations and many who denied were killed by the MEK calling it committing suicide by the children. Such as Alan Mohammadi 15, Marjan Akbari 15, Yaser Akbari Nasab 15.

Suicide killing is a well-known Cultish criminal act that Mek even committed in Paris in 2003 when Maryam Rajavi the Co-leader was arrested by French Judiciary.

The picture on the left shows three who survived out of the 12 members [who committed self-immolation in Paris, London, Ottawa.](#)

## Compulsory Divorce within the Cult

Masoud Rajavi the Cult [leader force divorced the members](#) and later organized Harem for himself from the women which have been arranged by Maryam Rajavi his wife. All is done under the false notion of reaching the absolute truth when they sleep with the self-claimed Calipha (Masoud Rajavi), and become a super human and will go to heaven.

Women members who had to sleep with Rajavi after divorce can testify in person. \_Some live in Germany.

## MEK and killing the Iraqi Kurds

From the early weeks of Operation Iraqi Freedom (OIF) until January 2009, coalition forces detained and provided security for members of the Mujahedin-e Khalq (MeK), an exiled Iranian dissident [cult group](#) living in Iraq. At the outset of OIF, the MeK was designated a hostile force, largely because of its history of cooperation with Saddam Hussein's military in the Iran-Iraq War and its alleged involvement in his suppression of the Shia and Kurdish uprisings that followed the Gulf War of 1991. (Extract form [Rand Report](#)). I am also a live witness to the killing of the Kurds in Iraq.

## MEK and Cultic nature

Prior to establishing an alliance with Saddam, the MeK had been a popular organization. However, once it settled in Iraq and fought against Iranian forces in alliance with Saddam, the group incurred the ire of the Iranian people and, as a result, faced a shortfall in volunteers. Thus began a campaign of disingenuous recruiting. The MeK naturally sought out Iranian dissidents, but it also approached Iranian economic migrants in such countries as Turkey and the United Arab Emirates with false promises of employment, land, aid in applying for asylum in Western countries, and even marriage, to attract them to Iraq. Relatives of members were given free trips to visit the MeK's camps. Most of these "recruits"

were brought into Iraq illegally and then required to hand over their identity documents for "safekeeping." Thus, they were effectively trapped. (Extract from [Rand Report](#) page38)

## The MeK as Skilled Manipulators of Public Opinion

During the more than four decades since its founding, the MeK has become increasingly adept at crafting and promoting its image as a democratic organization that seeks to bring down Iranian tyrants, both secular and religious. This profile has been especially effective in the United States and Europe, where, until recently, the MeK's extensive. (Extract from [Rand Report](#))

As of thousands gathered for an annual rally for the NCRI in France in June 2014 with 90% of the participants were none Iranians youngsters from East Europe deceived by free journey to Paris with free meal and Hotel, or from the refugees camps, [spokesman for the French Foreign](#) Ministry condemned the group for its "violent and non-democratic inspirations," "cult nature," and "intense campaign of influence and disinformation."

Below is the position of French Foreign Office on Mek when questioned about MeK by Mr. Ali Hossein Nejad member of No to Terrorism and Cults Association and 40 years member of Mek and special Arabic translator

MINISTÈRE DES AFFAIRES ÉTRANGÈRES  
ET DU  
DÉVELOPPEMENT INTERNATIONAL

RÉPUBLIQUE FRANÇAISE  
Paris, le 20.08.15 005656 CH

—  
La Chef de cabinet  
—

Monsieur,

Le Ministre a bien pris connaissance de votre courrier au Président de la République, appelant son attention sur la situation de votre fille Zainab. Il m'a chargée de vous répondre.

La France suit avec attention la situation des habitants du camp Liberty en Irak. Nous sommes conscients des risques de violence à leur rencontre. C'est la raison pour laquelle nous rappelons régulièrement au gouvernement irakien qu'il se doit d'assurer leur sécurité et de leur procurer les conditions de subsistance nécessaires.

Un accord entre les autorités irakiennes et les Nations unies a été signé le 25 décembre 2011. Ce texte accorde au Haut-Commissariat aux Réfugiés la compétence d'octroyer, aux habitants du camp Liberty, le statut de réfugié, en vue de leur réinstallation définitive dans des pays tiers.

La France, consciente de l'urgence de la situation, partage votre volonté qu'une solution soit trouvée dans les meilleurs délais pour les résidents de ce camp, dont votre fille fait partie. C'est pourquoi elle soutient le plan des Nations unies et souhaite qu'il se poursuive avec la coopération de toutes les parties.

La position de la France quant à l'Organisation des Moudjahidines du Peuple d'Iran (OMPI) est très claire : nous n'entretiens aucun contact avec l'organisation, qui est connue pour son recours à la violence. L'OMPI n'a pas d'existence légale en France en tant qu'organisation. Son inspiration violente et non démocratique a conduit plusieurs organisations de défense des droits de l'Homme à rappeler ses pratiques à caractère sectaire. Elles déplorent également son manque de coopération dans le cadre de la réinstallation des résidents du camp Liberty en Irak.

Je vous prie d'agréer, Monsieur, l'assurance de ma considération distinguée.

  
Anne de BLIC

Monsieur Ali HOSSEIN-NEJAD
